SUMMARY

Passionate self-taught web programmer with a strong foundation in HTML, CSS, and JavaScript. Dedicated to creating user-friendly, dynamic websites. Ready to put my skills into practice and contribute to your team.

SKILLS

- HTML/CSS
- JavaScript
- Bootstrap
- Tailwind
- Git/GitHub
- C#/.NET
- SQL
- MongoDB
- Express.js
- React.js
- Node.js

PROJECTS

Console Adventure Game

A text-based adventure game developed with C# where players navigate rooms, battle enemies, and seek the hidden jewel.

Study App

Add problem sets, take quizzes, and use flashcards. Stores data in a JSON file and makes requests to a json-server.

Workout Tracker

Uses React-Router to create a social media workout tracking application.

Yelp Camp

A vanilla JavaScript campsite sharing website based on Yelp.
